

# LOGO tape Handylift 41208 PV1 (NR)

The temperature resistant handle tape with individually printed non-adhesive carrying area

## PRODUCT INFORMATION

### Product description

LOGO tape handylift 41208 is based on a temperature resistant PET-film with an adhesive specifically designed for the application to PE-film. The inclusion of an individually printed paper label within the middle carrying area creates a non-adhesive handle.

The product design guarantees an easy unwinding for use on automatic handle applicators. The cross-wound spools ensure long machine runs and short down times.

### Application

LOGO tape handylift 41208 pre shrink handle tape is the ideal carrying system for heavyweight multipacks. The handle can be applied to the PE-film pre shrinking of the bottles.

### Storage conditions

Dry storage, avoid direct sunlight  
Storage temperature +15 to + 35 °C  
Shelf life up to 1 year after delivery

### Dimensions

Core width: 180 mm	Core: 6 cali; 25 mm, 37 mm	up to: 3500 m (25 mm handle width)
Core width: 350 mm	Core: 6 cali; 25 mm, 37 mm	up to: 7000 m (25 mm handle width)

Pancake roll 25 mm, 37 mm; Core: 3 inch; core width equivalent handle width  
Other dimensions on request

### Technical Data

Backing materia	<b>PET</b>
Adhesive	<b>Natural Rubber</b>
Colors	<b>Transparent</b>
Total thickness	<b>71 µm</b>
Adhesion to steel	<b>3,0 N/cm</b>
Tensile strength	<b>160 N/cm</b>
Elongation at break	<b>35%</b>
